COURSE REVIEW PROCESS

JLH Fire Safety Services courses are reviewed regularly to ensure currency of information and quality of performance.

Functionality

Reviews are performed annually or when an issue is highlighted either to the client service team or via course feedback.

Subject Matter

Expert review of content is performed annually or when there is a change in regulation or good practice.

Reviews

Our reviews follow a standard procedure, with any changes being documenteD. This is to ensure quality of content is supported by instructional design principles in relation to eLearning.
